**EXPERIENCE**

Brett is a Senior Building Consultant with over 12 years' experience in the construction and consulting industry. Brett has a diverse background with growing up working in construction, working as an engineering consultant and now as a building consultant in the restoration industry.

Brett's experience with construction started at an early age with building custom homes, agricultural buildings, commercial buildings and roofing. His knowledge extended in engineering consulting with obtaining a civil engineering degree and completed engineering design for a diverse range of construction projects. Brett learned invaluable experience in communication and management when he worked as a program manager for the construction of large capital improvement projects for the major utility companies across California. His tasks consisted of project estimating, preparation and administration of scope of work, managing inspection staff, cost tracking, conflict resolution, and change order negotiation.

Brett has taken his knowledge of construction and his experience with consulting into the restoration industry by joining RMC Group in 2017. Brett's strengths and experience have helped him consult on many diverse and large projects as a senior building consultant.
